

AMWELL

Telehealth Services

With Amwell, you can offer employees access to a nationwide network of US Board Certified physicians, available for live visits over mobile or web, whenever you need them. Telehealth visits cost less than ER, urgent care, or even in-office doctor visits – and they save employees 2-3 hours per consult. Best of all, employees love it.

You and your employees
save money, save time

Physicians

Nationwide network, right now

A great patient experience begins with the doctors. That's why we offer access to a national network of US, Board-certified physicians. These doctors are credentialed, certified, and trained to practice online. Their "webside manner" goes a long way: patients rate our doctors 4.7 on a 5-point scale: "Excellent"

- Credentialed per NCQA and AHRQ
- 15 years average time in practice
- Professional profile online
- Visible past patient ratings
- Live consultations, right now
- Available 24/7/365
- Nationwide

Technology

Healthcare made easy

Open the app, log on, or pick up the phone. That's all it takes to get the right care at the right time. Making it easy to get care is actually pretty hard. Our patented system speaks the complex "language of healthcare, so your employees don't have to.

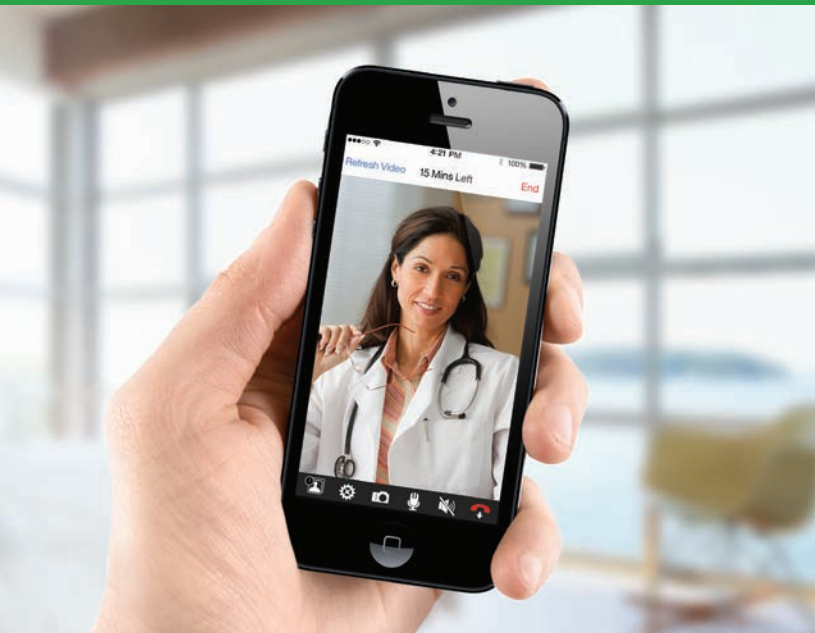

- Web, mobile and telephone access
- No special hardware or software required
- Automated claims and eligibility processing"
- SureScripts past prescriptions
- Clinical insight and care continuity
- HIPAA-compliant and secure
- Integration with Apple's Health app

Engagement

Awareness. Adoption. Usage.

It's all about being top-of-mind when a healthcare concern arises. That's why we have a tried-and-true program to engage your employees. Key elements of the engagement package include:

- Employer branded practice
- eMail enrollment program
- Direct mail postcard
- In-office posters, desk drops, mobile app cards
- Intranet button and copy
- Ongoing member emails
- Monthly utilization report
- FAQs

On-The-Go

Your employees can access Amwell using iPhone, iPad, or Android, with an intuitive interface and access to the same doctor network they see on the kiosk or the web – it's all one system. So there are no call-backs or wait times. It's so easy that most of our users choose live video for their visits. But for people who need it there's plain old telephone access, too.

Online

When you offer a valuable benefit to employees, you want them to know its part of the employment experience. What better way than to offer telehealth through your own branded telehealth practice? You might think that's expensive or hard to do – but with Amwell, it's easy! Just send us your logo and we'll get it all set up – best of all, it's included in our employer package at no extra charge.

On-site

Our elegant touch screen kiosk makes it possible to offer a private, secure place for healthcare at work. And it costs just a fraction of the cost to operate an onsite clinic. The self-contained, self-sanitizing unit includes biometric devices and remote exam tools, allowing an even greater range of healthcare concerns to be addressed.

Care Made Easy

A doctor visit on your terms

It's no secret that healthcare can be challenging. Same day appointments are hard to get, and alternatives are not much better. Seeking care after hours or on weekends often leads patients to urgent care, or worse – the ER. Amwell makes it easy to find and consult with a doctor, so fewer people end up in ER for minor complaints – and more people stay on the job during the workday.

Better Access

Supply meets demand

There's a shortage of doctors, and it's growing – making it harder to get an appointment and increasing wait times. Employers feel the pain in the form of increased absenteeism and presenteeism, and decreased productivity. Amwell is designed to eliminate all of this, with simple, convenient healthcare, available when and where patients need it.

Save Time

Get the care you need, right now

96% of employees that use Amwell save time addressing their healthcare concerns, and they save an average of 2-3 hours. Half use Amwell during traditional business hours; the other half are roughly split between weekday evenings and mornings and weekends. Bottom line: day or night, employees save time away from work and family. No wonder satisfaction is so high.

Save Money

The cost of care. Nothing more.

It's no secret that healthcare, even for the most basic needs, can be very expensive. Primary care doctor visits can be pricey at \$70-90 or more. Urgent care is over \$100. And ER visits break the bank at \$700 and up. Yikes! AmWell is designed to eliminate a lot of the cost by using the most affordable care settings: the workplace and home. It's a victory for your bottom line.
