

Next Generation Telehealth

Give your employees a real medical team

Our tight-knit provider group works hand-in-hand to ensure positive clinical telehealth outcomes for our patients — something loosely affiliated networks will never achieve. As a company founded by doctors, our innovative approach to healthcare always puts the patients first — you can count on that.

Amazing service! I was in great pain unable to move about and go to a doctor's office. Through this service, I saw a helpful physician, was diagnosed, and a prescription was written. I cannot thank Amwell enough! Life saver.

- Manufacturing employee

This was my first visit. I was in a rush and didn't have time to go to my local doctor's clinic. Amwell definitely saved me a few hours. The doctor was good and her recommended medications worked for me. Great experience.
